## TIA acquires goBundl

Jakob Vang Glud  
BD Manager TIA

# goBundl is a platform for easy onboarding and grouping

- ✔ Machine learning-based onboarding
- ✔ Transparent insurance offer
- ✔ Fair coverage and prices through collective buying power

A COMPLETE LANDSCAPE DEFINED BY TIA

# Your new digital journey meets insurance-business efficiency

## Platforms of Engagement

## Core Insurance Solution

## Systems of Insight

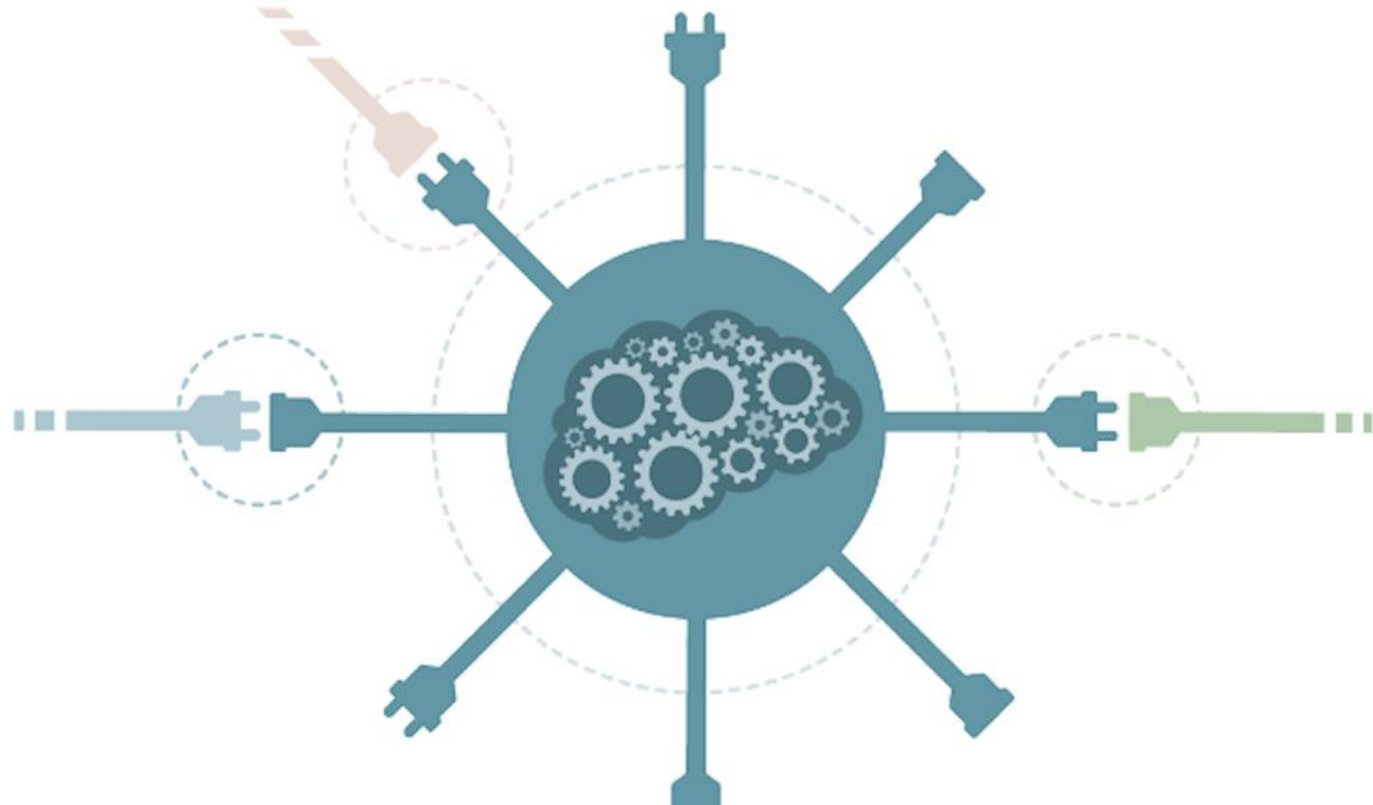

# Everybody wants to become the next Unicorn!

## But...

- B2C business models are slow and requires a lot of funding
- Hard to hit traction fast
- Complicated IT structure
- Legacy and few API's

# ONIX

Online Insurance Experience

Built with an outside-in perspective, ONIX is a complete end-to-end frontend framework that gives your customers a flawless digital journey.
